

## OUR ENVIRONMENTAL POLICY

Pasifik Mühendislik, which adopts the Environmental Management System as life philosophy, intends to be a pioneer in raising the environmental conscious in the sector, protect the global resources and leave clean world to the future generations.

Based on this goal, we have integrated the following PRINCIPLES:

- Consider environmental management as an integral part of our business and use environment-friendly materials in all our operations,
- Follow encouraging and supporting policies to transform our employees into "GREEN CONSUMERS",
- Minimize the environmental impact by improving our practices related with our current and new investments,
- Fulfill our sector-specific and legal obligations in the matters concerning our activities, comply with ethical rules, national and international regulations,
- Support and increase environmental sensitivity of all interested parties, our customers, suppliers and general public,
- Maintain the ISO 14001 Environmental Management System through continuous improvement,
- Ensure disposal of our wastes in a manner according to their characteristics, support recycling and reuse, keep pollution arising from our wastes at minimum level,
- Ensure efficient, effective and the lowest level use of our natural resources and to this end, follow all kinds of technological developments.
